Report

"Dentistry, a field that has witnessed tremendous growth and transformation in recent years, continues to evolve with the integration of cutting-edge technology, innovative materials, and groundbreaking research. As we strive to improve oral health outcomes and enhance patient care, research plays a vital role in shaping the future of dentistry.

General Objective:

To update post graduates and interns on the latest research trends and advancements in dentistry.

Specific Objectives:

- To discuss current research in oral cancer diagnosis and treatment
- To explore emerging technologies in dental implantology
- To examine the role of artificial intelligence in dental research and practice

Report

Research methodology is a systematic approach used to conduct research. It involves various techniques and methods used to collect and analyze data

General Objective:

1. To gain practical experience and skills in a professional setting.
2. To apply theoretical knowledge in a real-world context.
3. To develop professional networking and communication skills.

Specific Objectives:

1. To assist in the development and implementation of a specific project.
2. To conduct research and gather data on a designated topic.
3. To develop and present a report or presentation on a specific area of learning.

Resource person – Mr.C. Balakrishna, Professor in community medicine, Malla Reddy Medical College for Women

Glimpse of the Event

A Capability Enhancement Programme was conducted for PGS Interns, with an overwhelming 85 students registering for the Research Methodology training. This comprehensive programme aimed to equip interns with the essential skills and knowledge to design, conduct, and present research studies. Through interactive sessions and expert guidance, participants gained a deeper understanding of research principles and practices. This training will undoubtedly enhance the quality of research projects and foster a culture of inquiry among our future healthcare professionals.

REPORT OF THE EVENT

11-12-22

INTRODUCTION:

A Learning Management System (LMS) is a software application or platform designed to facilitate the management, delivery, and tracking of educational courses, training programs, or learning content. LMS platforms are commonly used in educational institutions, corporate training settings, and other organizations to streamline the administration and delivery of learning materials.

OBJECTIVES:

General objective: to provide a comprehensive platform for managing, delivering, and tracking learning experiences, courses, and educational content

Specific objectives:

- Offering a centralized repository for storing and organizing learning materials, including course content, lectures, presentations, videos, documents, and assessments.
- Ensuring that learning materials and resources are easily accessible to learners anytime, anywhere, using various devices such as computers, tablets, and smartphones.
- Providing tools for creating, administering, and grading assessments, as well as offering timely feedback to learners to monitor progress, evaluate performance, and support continuous improvement.

REPORT OF THE EVENT

24-04-23

INTRODUCTION:

Research methodology refers to the systematic process used by researchers to conduct a study, gather data, analyze findings, and draw conclusions. It encompasses the overall approach and techniques employed to address research questions or hypotheses effectively.

OBJECTIVES:

General objective: to provide a systematic framework for conducting research studies, which enables researchers to address research questions or hypotheses effectively and contribute to the body of knowledge in their respective fields

Specific objectives:

By following a rigorous research methodology, researchers can ensure the credibility, validity, and reliability of their findings, contributing to the advancement of knowledge in their respective fields.

The objective is clear, measurable, and actionable, providing a specific direction for conducting research in dental PG studies.

RESOURCE PERSON: Dr.P.Prashanth, Assistant Professor in community medicine, Malla Reddy Medical College for Women

REPORT OF THE EVENT

16-11-2021

INTRODUCTION:

EBSCO Information Services is a company that provides a range of research databases, e-journals, magazine subscriptions, and other information resources for academic institutions, libraries, corporations, and other organizations. They often offer training programs to help users make the most of their services and products.

OBJECTIVES:

General objective: EBSCO typically provides online tutorials covering various aspects of their products and services. These tutorials may be in the form of videos, interactive modules, or written guides.

Specific objectives:

- For larger institutions or organizations, EBSCO might offer on-site training sessions tailored to the specific needs and interests of the participants. These sessions could include hands-on workshops, demonstrations, and personalized guidance.
- EBSCO typically provides comprehensive documentation and user guides for their products and services. These materials can serve as valuable references for users to consult as needed.

REPORT OF THE EVENT

29-04-2022

INTRODUCTION:

Research methodology plays a critical role in guiding the research process and ensuring that research studies are conducted systematically, ethically, and rigorously, leading to valid and reliable findings

General objective: It encompasses the techniques, procedures, and tools used by researchers to gather, analyze, and interpret data in order to answer research questions or test hypotheses effectively.

Specific objectives:

- Outlining the overall plan or strategy for conducting the research study. It includes decisions about the type of research (e.g., qualitative, quantitative, mixed-methods), the research approach (e.g., experimental, observational, correlational), and the specific methods and techniques to be used.
- Involve writing research reports or articles for publication in academic journals, presenting findings at conferences, or sharing results with relevant stakeholders through other means.

Sub: Requesting Permission to conduct Session on Conceptual Understanding of
Regression Modelling

Respected Sir,

The coordinator of MRDCW, would like to organize Session On **Conceptual Understanding of Regression Modelling** for IVBDS on 19 Feb 2020. Kindly grant us permission for the same and support the event.

Thanking you.

Yours faithfully,

CO-ORDINATOR

MALLA REDDY
DENTAL COLLEGE FOR WOMEN

Date: 18-02-2020

Ref: MRDCW/Circulars/CES//2020/Feb 18

CIRCULAR

The IVBDS are hereby informed that course titled- 'Conceptual Understanding of Regression Modelling'-will be conducted on 19 Feb 2020. The concerned staff are hereby requested to give permission to the students attending the programme.

Resource person – Dr.P.Palavardhan, Associate Professor in community medicine, Malla Reddy Medical College for Women

Venue – Lecture Hall -3

Date-19 Feb 2020

REPORT OF THE EVENT

22-02-2020

INTRODUCTION:

Regression modeling in dentistry involves using statistical techniques to analyze the relationship between one or more predictor variables and a response variable related to dental health or treatment outcomes.

General objective: regression modeling is a valuable tool in dentistry for analyzing complex relationships between predictor variables and dental outcomes, facilitating evidence-based practice and improving patient care.

Specific objectives:

- Regression modeling in dentistry can inform clinical decision-making, treatment planning, and preventive strategies. It allows dentists and researchers to identify risk factors for oral diseases, evaluate the effectiveness of interventions, and tailor treatment approaches to individual patient characteristics.
- It's essential to validate regression models to ensure their reliability and generalizability. This may involve assessing model fit, checking for multi collinearity among predictor variables, evaluating residuals for homoscedasticity and normality, and testing for interactions or nonlinear relationships.

RESOURCE PERSON: Dr.P.Palavardhan, Associate Professor in community medicine, MRMCW

VENUE: Lecture Hall 3

DATE–19 Feb 2020

NUMBER OF PARTICIPANTS: 55 students from IV BDS
