INSTITUTION POLICY DOCUMENT TO DISTINGUISH SLOW LEARNER AND EXECUTE REFORMATIVE MEASURES

AIM

To identify the slow learners among the undergraduate and post graduate students of that batch and to implement reformative measures for their academic as well as personal development

OBJECTIVE

Initial assessment: Assessment of the student by their performance in their practical labs and theory classes on regular basis during their classes. Evaluating their understanding ability of the subject by observing the way of their presentation of the subject that they understood.

Strategies to improvise: assessing their skills step by step , reforming their approach towards learning techniques

Individual intervention: Help to identify their weaknesses and strengths, to drive them towards success and psychological support by motivating the students

Remedial programs: to provide additional support and guidance by following strategic methods to improve their performance

CRITERIA TO IDENTIFY SLOW PERFORMERS

1. Students who are lagging in their regular work in practical labs and clinical postings
2. Students who score less than 30% marks in internals
3. Students who are absent for the exams
4. Students who show bad performance in their practical exams and viva voce

SPECIAL PROGRAMMES FOR SLOW LEARNERS

1. Regular Discussions are taken in the practical labs and clinical postings
2. Assignments are given to the students
3. Allotment of Buddies in practical labs and clinical postings
4. Remedial classes are conducted
5. Slip test and retest are conducted
